# Long Division Step by Step

Grade 4 • MATH • Long division with 1-digit divisors • Standards: 4.NBT.B.6

*Solve each division problem using long division. Remember to follow the steps: Divide, Multiply, Subtract, Bring down, and check your answer by multiplying!*

**1.** 48 ÷ 4 =

**2.** 63 ÷ 3 =

**3.** 85 ÷ 5 =

**4.** 96 ÷ 6 =

**5.** 112 ÷ 7 =

**6.** 144 ÷ 8 =

**7.** 156 ÷ 4 =

**8.** 207 ÷ 9 =

**9.** 325 ÷ 5 =

**10.** 378 ÷ 6 =

**11.** 496 ÷ 8 =

**12.** 567 ÷ 7 =

# Answer Key — Long Division Step by Step

For the teacher / parent. Do not distribute with the worksheet.

**1.** 12 *(4 goes into 48 twelve times because 4 × 12 = 48)*

**2.** 21 *(3 goes into 63 twenty-one times because 3 × 21 = 63)*

**3.** 17 *(5 goes into 85 seventeen times because 5 × 17 = 85)*

**4.** 16 *(6 goes into 96 sixteen times because 6 × 16 = 96)*

**5.** 16 *(7 goes into 112 sixteen times because 7 × 16 = 112)*

**6.** 18 *(8 goes into 144 eighteen times because 8 × 18 = 144)*

**7.** 39 *(4 goes into 156 thirty-nine times because 4 × 39 = 156)*

**8.** 23 *(9 goes into 207 twenty-three times because 9 × 23 = 207)*

**9.** 65 *(5 goes into 325 sixty-five times because 5 × 65 = 325)*

**10.** 63 *(6 goes into 378 sixty-three times because 6 × 63 = 378)*

**11.** 62 *(8 goes into 496 sixty-two times because 8 × 62 = 496)*

**12.** 81 *(7 goes into 567 eighty-one times because 7 × 81 = 567)*
